VOLUME 35

FRIDAY SEPTEMBER 25 1942

NUMBER 22

Sugar Factory Campaign Started Wednesday

With a good supply of beets in the sheds, the local Factory started slicing beets at 8 a.m. Wednesday morning and the first "strike" of new sugar came into the driers about 5 p.m. that day. Matisz and sons hauled the first load of beets into the sheds from the 1942 crop Friday afternoon last and were followed by another three or four loads that day, and Saturday saw quite a large number of loads roll in, and Monday despite the rain, an almost steady stream of wagons, tractors and trucks were rolling beets into the sheds, before King Winter plays his hand.

All sugar from last year's beet crop was sold and the warehouse and bulk storage bins were cleaned right out the end of the week, so that all storage space available will be ready for the new crop.

Ike Orgill was a Calgary visitor over the week-end.

Cut Gas For Pleasure Cars

"AA" CATEGORY FOR DRIVERS NOT USING THEIR CARS FOR BUSINESS

Ottawa, Sept. 18—Establishment of a new gasoline rationing category for all persons using a car for personal transportation and not for business, reducing the motor fuel available to them, will be effective Oct. 1, Munitions Minister Howe announced last night in an address over a Canadian Broadcasting Corporation national network.

The minister said submarine attacks have caused "colossal" damage to oil tankers, reserves of gasoline are about 20,000,000 gallons less than a year ago, and stocks of crude oil and unfinished products are about 40,000,000 gallons less.

Those to be moved into the new "A" category are users of cars for other than essential purposes and who can best do without a car if the gasoline supply situation continues to deteriorate, the minister said.

Category "AA" will permit the purchase between Oct. 1 and March 1, 1943, of 16 units for cars in class one—the lighter types; 18 units for class 2—the medium size; and 20 units for class 3—the larger types.

The gasoline unit is three gallons in the Maritimes, four in Quebec, Ontario and British Columbia, and five on the prairies.

In the present category "A" a driver is entitled to 60 units a year and in the six months from Oct. 1 to March 31 could get 30 units almost double the "AA" allowance. In category "A" the driver with a class 2 car may receive 34 units every six months and in class 3 33 units.

Everyone who depends on fuel oil for heating this winter will do so at his own risk since the supply of this fuel is more precarious than it was in the summer, said Mr. Howe adding:

"In the month of July, not one ocean tanker reached Halifax."

"Let us not discount the impact on Canada of submarine warfare."

Local Crop Conditions

Harvesting this fall is a game of touch and go. This has been another week when no combining has been possible because of wet weather. The rain which came Sunday had just dried off enough that combining could have commenced Wednesday morning, when during the night some more rain fell, and during Wednesday all day the skies were overcast with rain falling in periods all day long. Grain farmers are beginning to wonder whether or not there will be a harvest this fall.

Beet growers are not faring much better. Digging is under way to an extent, but it is limited and those who are getting beets out are more or less digging them out of the mud. A number were plowed out Saturday and Sunday, and most of these have been topped and delivered, although in the words of one person "the heads of beets look like loads of mud balls."

The Factory commenced slicing beets at 8 a.m. Wednesday morning despite the fact that reserve stocks in the sheds were smaller than is usually the case for a start-up. However, it has been drier in some sections of the district and it is likely that enough will be shipped in from these parts of the beet growing area to keep the mill running. Farmers are doing all they can to get their beets up and everyone is hoping that skies will clear and the harvest be allowed to continue in good weather.

The first of the new sugar came down during the night and is being bagged now for a waiting market, all of last year's 'make' having been marketed before slicing of this year's beets commenced.

Rotary Corn Roast

Rotarians and their wives were guests of Mr. and Mrs. T. Geo. Wood Monday night, when the weekly Rotary meeting took the form of a corn roast at the home of the late John W. Taylor home which is located at the back of the Wood lot. The group of about twenty certainly enjoyed the evening.

Gathering at 6:30 a boiler full of corn was put on over an open fire and soon was boiling merrily and the feed commenced. With corn in one hand, buns filled with ham or cheese or both in the other, and a cup of delicious chocolate the Rotarians and their Aims tried to outdo each other in the amount of corn they put away. Enough had been gathered for eight cakes each, but we believe that even Warren and Doc Hall stopped at six each, despite their efforts to outdo each other. President Warren as the perfect host, ate with all the late comers in order to make them feel just right, even if he didn't.

After lunch an hour or so was spent in a sing song and a light conversation and the party broke up about 10 p.m. with the expressed wish that more assemblies of this type be held. The Fellowship and After-dance committee of the Club sponsored the evening which was greatly enjoyed by everyone.

Youth Training Classes To Begin October 1st.

The Dominion - Provincial Youth Training Health and Recreation classes will open for the season in Raymond at the High School Gymnasium at 7 p.m. on Thursday, October 1st. These classes are open (free) to anyone 16 years of age or over, provided that they do not attend school. Class schedule is:

Ladies 2 p.m. to 8:30 p.m. Monday and Thursdays
Men's 8 p.m. to 9:30 p.m. Mondays and Thursdays.

The New Health and Recreation program has been designed especially to fill a wartime need. "We have designed this program to provide a place where the people can go to get about the war, labor shortages, and stormy weather for an hour or two; a place where they will be able to do their everyday tasks better, and a place where everyone can play together to build up the ideal attitude of comradeship. While they are playing they will build muscle from useless fat, take inches off their waist-line, and actually make them feel ten years younger. Appearance is also improved."

The New Program includes Fundamental Gymnastics, Tumbling and Vaulting, Folk Dancing, Community Singing, Floor Hockey, Volleyball, Chair Gymnastics, Parties of various kinds, Balancing and Pyramids, Weight lifting, Handicrafts, Informal Games, Basketball, Ping-pong, Bench Work. Come prepared to take part on Thursday. Girls bring gym suits or slacks; boys usually wear swimming trunks. Shoes with rubber soles may be worn or exercises may be taken with bare feet.

The New Program is not as strenuous as the old and people up to 70 years of age have taken part. The course has been designed for the average individual who would like to take part but who feels like he has past the age for athletics. Provision is made however, for those who wish to advance to the stage of professionals in the field. See you on Thursday.

Second Ward Relief Society Re-organized

WEDDING BELLS

SELMAN — WEST

Barker, son of Mr. and Mrs. C. W. Selman, and Miss Mae West, sister of Mrs. L. H. Jacobs and Mrs. F. D. Merrill were married in the Cardston Temple on Thursday, with Pres. Wood officiating. Relatives and friends of both were present to witness the ceremony, and the young couple left immediately for their honeymoon.

Barker is in the service and is now stationed at Kingston Ontario. He was given 20 days leave, the authorities feeling that marriage was important enough to warrant that much. They will visit Niagara on their return to Eastern Canada. The best wishes and congratulations of Raymond and district will go with the newlyweds on their matrimonial journey.

Lions Club Meeting Held

The regular meeting of the Lions Club was held at the Sugar Bowl Monday September 21st, at 7:30 p.m.

The meeting was opened in the usual manner by singing "O Canada", with prayer being offered by Lion M. T. King, with 21 members present.

Community singing was enjoyed by all the members being led by Lion Tamer Jos. Strong, Jack Vanderhill and made up of Jos. McLean, Jos. Strong, Jac Vanderhill and Jim Weaver sang "My Bonnie Lie over the Ocean."

Victor Miller was the winner of the Scholarship which was presented to the best student at the High School. Past Pres. Pack made the presentation at the school. Mr. Jacobs who was present at the meeting thanked the Club for the Scholarship also conveying the thanks of all the teachers.

It was decided by the members to present 2 Scholarships next year of \$25.00 each. One for the boy and one for the girl.

Mr. Jacobs gave a talk on the Alaska Highway and Inflation. This was very educational and enjoyed by all.

The meeting closed by singing the National Anthem.

Hospital News

The Hospital Committee mailed the last of the necessary petitions and forms to the Department of Health last week, and are just waiting now for information from Edmonton as to the permission to set up a provisional board and the outlines of the district. It is then expected that meetings will be held to acquaint people with the details of the plan before a date is set for voting.

With the new rationing orders on gasoline affecting many in the district, it seems more than ever necessary that we push ahead our Hospital scheme, and everyone should lend all possible support to the move. Everyone can help if they will. If you are converted, start now and convert your neighbors to the benefits of a Municipal Hospital for Raymond and district. WE NEED IT.

GOOD NEWS FOR THEATRE GOERS

Mrs. Miniver will open an engagement in Brewerton's Capital WED. OCT. 7th for three days.

For the first time in 19 years a change has been made in the Second Ward Relief Society organization, and for thirty years, ever since the 2nd Ward came into being, Mrs. T. O. King has served as the Relief Society president, having served in the Presidency of the Ray. Ward before its division for six years, Mrs. John Salmon as Secretary has served with Mrs. King during these thirty years. Nineteen years ago Mrs. Fred Roneril was sustained as counselor to Medames King and Hilt in the Presidency and with Mrs. Salmon these three have carried on for nineteen years. This has certainly been a fine record of service to the people of the ward by these fine women, and Bishop Palmer in announcing their release paid them a fine tribute in saying that as a Bishop, during his years of service, they had never had any anxiety regarding the Relief Society as their work in the ward was always well taken care of and their part fully done.

The new Presidency are, Mrs. Wilford Heninger, President; Mrs. Mae Tollestrup and Mrs. Angelina Witbeck as counselors and Mrs. Earl Zemp as Secretary. The changes were all unanimously sustained by the congregation present.

T. Ivan Davies of Hill Spring is on the Factory staff this year.

Victor Miller Wins Scholarship

On Friday afternoon at the High School, the Lions Club scholarship, awarded to the student of the Raymond High School with the best standing on graduation, was presented to Victor Miller, son of Mr. and Mrs. John Miller, who finished his Grade XII in June and has now departed for continued study in the University of Alberta at Edmonton. The presentation was made by L.R. Pack, immediate past president of the Lions Club, under whose presidency the scholarship idea was introduced. The Club hopes to make it an annual contribution.

This year the scholarship was awarded, based on the following points: Scholarship and standing in studies, 50 p.c.; Deportment, 20 p.c.; Student activity, 20 p.c.; Something creative or beneficial to the School, 10 p.c. In the words of one of the High School staff, Victor had been an outstanding student in his years at the High School. His work was always of a superior quality, he was courteous obedient and co-operative in everything, and his energy in the editing of the "H Times," the local school paper won recognition from the "Quill and Scroll," a sort of measure of perfection for all High School and College papers.

We congratulate Victor on his achievement, and the Lions Club on their fine gesture, on this giving of a scholarship. We are wondering if some other Clubs or organizations could not co-operate with the Lions and probably make this donation a little larger and further aid the higher education of our students.

THE NEW INCOME TAX

PART I - As it Affects

SALARY AND WAGE EARNERS

1. Question: WHO MUST PAY?

Answer: All persons in receipt of incomes over \$660 single—or \$1200 married.

2. Question: WHAT FORMS DO YOU HAVE TO FILL OUT?

Answer: Unless you are single, without dependents, and not making payments for allowable personal savings (Item 5D), you should file Form TD-1 with your employer. Otherwise he must deduct the amounts provided by the Table of Tax Deductions for a single person without dependents or personal savings.

If $\frac{1}{4}$ or more of your income comes from salary or wages, you must file your 1942 Income Return by 30th September 1943. If your income is not over \$5,000, including not over \$100 from investments, you will use Form T-1-Special; otherwise you will use Form T-1.

3. Question: WHEN AND HOW IS YOUR TAX COLLECTED?

Answer: Your employer is required by law to make deductions from your salary or wages on account of your 1942 tax during the period September 1942 to August 1943. Each deduction must be the amount provided by the official Table of Tax Deductions for your current rate of pay, and family status and personal savings as declared on Form TD-1 (Item 2 above).

The Table is designed to collect about 90% of the tax on your salary or wages, leaving a balance of not more than 10%, in most cases, (plus tax on your other income, if any) to be paid with your Income Return to be filed in September 1943.

If your salary or wages are less than $\frac{1}{4}$ of your income, you must pay tax on your other income by compulsory instalments. (See Part II below).

4. Question: WHAT CONSTITUTES TAXABLE INCOME?

Answer: Your income is made up of your full salary or wages before any deductions whatsoever, plus living allowances, gratuities or bonuses (including cost of living bonus) and the value of any board, living quarters or supplies, etc., given you by your employer. It also includes such receipts as interest and dividends, rents (after taxes, repairs, etc.), royalties and annuities. From your total income you deduct payments (up to \$500) into certain types of employees' superannuation or pension funds, charitable donations up to 10% of your income, and medical expenses over 1% of your income (maximum—\$400 single, \$600 married, plus \$100 for each dependent up to four), to find the amount of your taxable income.

5. Question: HOW MUCH DO YOU PAY?

Answer: (A) Normal Tax—(whichever rate is applicable is applied to the full amount of

A booklet entitled

"YOUR 1942 INCOME TAX"
will be available shortly
at offices of Inspectors
of Income Tax.

your taxable income from the first to the last dollar).

- (1) Single—
with taxable income between \$660 and \$1800—7%
with taxable income between \$1800 and \$3000—8%
with taxable income over \$3000—9%
(2) Married (or equivalent status)—
with taxable income over \$1200—7%
(3) Dependents—tax credit for each—\$28

- (B) Graduated Tax—
(1) On first \$660 of taxable income—No Tax.
10% on next \$ 100 15% on next \$ 1,000
35% on next 100 60% on next 7,000
37% on next 1000 61% on next 10,000
41% on next 1100 70% on next 20,000
45% on next 1500 75% on next 20,000
10% on next 3000 80% on next 30,000
15% on excess over \$100,000
(2) Married (or equivalent status)—tax credit—\$110
(3) Dependents—tax credit for each—up to \$10

- (C) Surplus—4% on investment income over \$1500 without exemptions.

NOTES

- (1) In no case are you required to pay a net tax (i.e., after credit for dependents) which would reduce your taxable income below \$660 single or \$1200 married.
(2) If a wife has unearned income over \$660, then both she and her husband are taxable as single persons, but any amount a wife earns does not affect her husband's right to be taxed as a married person. A married woman is taxed as a single person under all circumstances except only when her husband's income is less than \$660.

(D) Tax Credit for Personal Savings—

You may deduct from the savings portion of your tax (Item 6) 1942 payments on account of—

- (1) an approved employees' (or trade union) superannuation, retirement or pension fund;
(2) premiums on life insurance policies issued prior to 23rd June 1942 (if issued after that date ask your insurance company or Inspector of Income Tax);
(3) annuity or savings policies not postponable without substantial loss or forfeiture; and
(4) principal payments on a mortgage or agreement of sale, existing prior to 23rd June, 1942, on one residential property.

provided (a) they do not exceed the savings portion and (b) receipts are produced for the payments when filing your Income Return.

(E) National Defence Tax—

This tax does not apply after 31st August, 1942. The deductions made during January to August 1942 apply as a payment on account of your 1942 tax.

6. Question: HOW MUCH OF YOUR TAX IS SAVINGS?

- Answer:
(1) Single—the lesser of
(a) $\frac{1}{2}$ the total of your Normal Tax, Graduated Tax and Surplus; or
(b) 8% of your taxable income (maximum \$800) plus 1% for each dependent (maximum \$100 for each).
(2) Married (or equivalent status)—the lesser of
(a) $\frac{1}{2}$ the total of your Normal Tax, Graduated Tax and Surplus; or
(b) 10% of your taxable income (maximum \$1000) plus 1% for each dependent (maximum \$100 for each).

You will get back the savings portion of your tax which you actually pay, plus 2% interest, after the war.

7. EXAMPLES OF AMOUNTS PAYABLE ON 1942 EARNED INCOME (after allowing for National Defence Tax actually deducted Jan.-Aug. 1942)

1942 INCOME	SINGLE—NO DEPENDENTS		MARRIED—NO DEPENDENTS		MARRIED—2 DEPENDENTS	
	TAX INCLUDING SAVINGS	TAX ONLY	TAX INCLUDING SAVINGS	TAX ONLY	TAX INCLUDING SAVINGS	TAX ONLY
\$ 750	\$ 54.50	\$ 14.75	—	—	—	—
1,000	138.67	38.67	—	—	—	—
1,500	297.20	177.20	\$ 167.20	\$ 58.60	\$ 25.66	\$ 1.16
2,000	507.46	347.46	304.13	174.80	67.40	67.40
2,500	709.13	509.13	567.46	317.46	128.13	160.73
3,000	924.40	684.40	784.40	484.40	195.06	260.86
3,500	1,161.06	901.06	1,007.73	657.73	218.40	398.40
4,000	1,407.73	1,087.73	1,211.06	831.06	1,041.73	561.73
5,000	1,894.67	1,494.67	1,711.33	1,211.33	1,522.00	922.00

PART II - As it Affects

PERSONS OTHER THAN SALARY AND WAGE EARNERS (Such as business or professional men, investors, and persons on commission)

1. PAYMENTS—You must pay your 1942 income tax by quarterly instalments beginning on the fifteenth day of October 1942. Remittance Form T-7-B Individuals, to be sent in with your payments, may be secured from

Inspectors of Income Tax some time in September.

2. RETURNS—You file your 1942 Income Return on Form T-1, on or before the thirtieth day of April 1943.

NOTE:—Items 1, 4, 5 and 6 of Part I also apply.

IF YOU ARE AN EMPLOYER paying any person on a daily, weekly, monthly or any other basis, it is your responsibility to deduct Income Tax instalments from the salaries or wages you pay, commencing with the first pay period beginning in September, and send the amount deducted to your Inspector of Income Tax within one week from the pay-day. Severe penalties for failure to deduct or remit. If you are in doubt as to your obligations to deduct, communicate with your Inspector of Income Tax at once.

The British Aircraft Carrier "Illustrious" A Striking View

Back to the nest - a fine aircraft carrier "Illustrious" is once more living up to study taken at sunset as a torpedo plane of the British Fleet and re-equipped in U.S. and Air Arm circled over the famous British shipyards, the

WEEKLY LETTER

HARVESTING VEGETABLE SEED

The production of vegetable seed in small quantities is an important item in many farm and town gardens this year, and the harvesting of this seed appears to be quite a problem according to enquiries at this Station. Actually the process of harvesting vegetable seed is a simple one providing certain rules are observed.

The pods of peas and beans frequently ripen on the plants but in certain seasons when the weather is wet and cool, it may be necessary to pick them before they have ripened completely. As soon as the beans or peas in the pods are full grown and in the dough stage, they may be picked for seed. Tomatoes, citrons, pumpkin, etc., do not necessarily have to be completely ripe if they are to be used for seed, but it is well to let them ripen indoors before the seed is extracted.

Threshing the seed once the pods or balls are thoroughly dried or extracting the seed from tomatoes, etc., may be somewhat of a problem to those not familiar with this work. Peas and beans shell easily when properly dried by tramping or rubbing the pods. The dry seed balls of carrots, parsnips, and onions are generally broken up by beating with a flail or rolling them with a medium heavy roller. The chaff is then separated from the seed by winnowing or with a small flanning mill if such is available. Usually no difficulties are encountered in extracting the seed of citrons, squash, etc., since this must be done by hand. However, in tomatoes, the jelly-like substance and the pulp round the seed is often hard to remove. The most effective way to clear the tomato seed is to scrape the seed out of the fruit into a container, add a little water and then allow to ferment for five days. After this period the seed can be washed out of the pulp quite easily and is then spread on newspaper to dry.

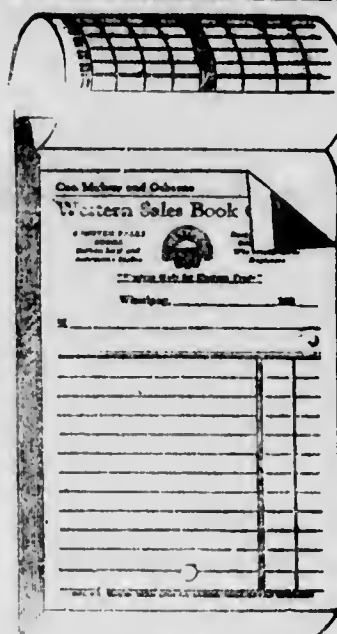

Sweet corn can be picked for seed once the kernels have reached the dough stage, but this must be done before heavy frosts have occurred. The ears should be husked and placed in

a dry place, where there is no danger of frost, for rapid drying. It is well for the ears not to touch each other during this drying process. Once the kernels are thoroughly dry frost has no effect on the germination of the seed.

The secret to success in obtaining good viable vegetable seed in general is merely drying the seed quickly and thoroughly. If this is not done the excess moisture in the seed or seed pods encourages the growth of moulds which quickly destroy the vitality of the seed. However, if the seed pods, the balls, and the extracted seed of the fleshy vegetables such as tomatoes, etc., are placed in thin layers on window screens and in a airy open place, no difficulties should be experienced.

More rain, more rest, may be a good slogan some times, but farmers would like to see about one month's steady sunshine now to finish up the harvest and get ready for the winter months.

A meeting of the Raymond-Magrath Feeder Association was held in the Magrath Town Hall on Friday evening last when business of interest to the members was discussed. The next meeting will be held in Raymond on October 2nd.

The Recorder

The Agricultural Representative

It is not many years since the technical agriculturist, often dubbed the "white-collared farmer," was regarded with suspicion and was a fairly successful competitor with the "green Englishman" as a target for the farmers' humour. Fortunately for farmers, scarcely a trace of that attitude remains. When wheat was two dollars or more per bushel, western farmers could make money without technical advice. Now, however, with mixed farming becoming more and more prominent, soils becoming eroded and overrun with weeds, the technical agriculturist no longer has to sell himself to the farmer: he is in demand. All sorts of mysterious plant diseases, hog diseases, poultry diseases, livestock feeding problems, sowing pastures and hayfields, and countless other problems which entail financial loss to the farmer if the most up-to-date scientific knowledge is not put to work, require the assistance of scientific agriculturists.

The most important link between the agricultural research worker and the farmer is the Agricultural Representative or District Agriculturist, as he is called in Alberta. In Ontario, there are now 54 County Agents—exactly the same sort of "animals" as our "Ag. Reps." We have a slightly smaller number for the three prairie provinces combined. We need more badly.

The Agricultural Representative does not pretend to teach farmers how to farm. His job is to put farmers in touch with sources of information if he cannot supply it himself.

Get to know your "Ag. Rep." He can save you time, trouble and money.

By

The Canadian asked our price for wheat. Increase acreage, raising, all in order. Bacon and other products. All this, but Nature, with one bounty, has given us a yield on the greatly increased acreage.

Our Government, however, has only agreed to buy 280 million bushels of this crop, yet our farmers will have to pay out much cash money to harvest, thresh and store all the crop. It seems to me, therefore, that in justice to our prairie farmers our Government ought to purchase this year not 280 million bushels of this crop (the Government will probably dispose of much more than 280 million bushels) but all the crop.

It will, however, be some time before storage space will be available to take all the crop. In the meantime, therefore, the Government might also make a cash advance to our farmers that would cover the costs of harvesting, threshing and storing on the amount of wheat farmers have to sell over and above the 280 million.

The United States Government is making advances to their farmers of around \$1.16 a bushel on all the large wheat crop produced this year.

Following factors have tended to decrease supply and increase demand:—Soviet Russia has lost about one third of her wheat and rye acreage as a result of war—Newly arrived spring wheat at Minneapolis terminals has a large percentage of moisture damaged grain—Grain supplies in Eastern and Central Europe and in Turkey are below requirements.

Following factors have tended to increase supply and decrease demand:—The exportable surplus of wheat in Argentina is 179 million bushels compared with 129 million bushels a year ago—Trade reports indicate favorable weather for crops in Australia and Argentina—Crop production this year in Canada, the United States and the United Kingdom created new high records.

Raymond School Board.

NEWS NOTES

A sacred concert will be held in the State House Sunday evening September 27th. The entire program will be furnished by the Alberta Stake and will feature numbers by the Stake Choir directed by Mrs. John S. Smith and talks by the new Stake Presidency.

Victor, son of Mr. and Mrs. J. Miller left Lethbridge by train Sunday evening for Edmonton where he has enrolled in the University for a course in chemical engineering. His parents took him to Lethbridge and "Jack" says were the roads slippery after the heavy shower.

Maybe we ought to send for Rainmaker Hatfield to come in now and make the rain stop for awhile. We always say though that we have never seen too much rain, and a couple of weeks of sunny weather and we would forget all of this and begin to wonder if it were ever going to storm again. Such is human nature.

W. I. Meeting Held

The Raymond W.I. held their September meeting at the home of Mrs. R. Webster. There were 20 ladies present.

The meeting was opened by singing "O Canada" and the creed repeated, minutes of the last meeting were read and accepted.

Roll call was answered by "what I have enjoyed most this summer."

Mrs. C. Rolfsen and Mrs. O. Turner were put in charge of 2 quilts for the Red Cross from the W. I.

50 cents was assessed each member to be sent in to buy Jam or honey for refugees. 1 dilly bag filled and delivered to Mrs. Cunningham for Navy League and arrangements made to fill 2 more by Xmas.

Miss Rankin gave a splendid paper on Education and Better Schools which was enjoyed by all.

Mrs. Harold Stevens gave a reading "Being Cliniced."

The meeting closed by singing "O Canada Save Our King."

Lunch was served by the hostess.

Next months meeting will be held at the home of Mrs. W. Zehel on October 8th. Legislation and International Relation ship.

The Taylor Stake Presidency were all at the Magrath Second Ward last Sunday evening attending Ward conference.

NEED BETTER FINISH FOR FARM PRODUCTS

If ever there was a time when more care should be taken to pay special attention to finishing farm animal products properly and marketing them at proper weights it is while this war is on. Not only do poorly finished products, such as hog, cattle, sheep and poultry mean less profit to the producer but they also mean a handicap to the war effort in several directions. With the acute shortage of labour poorly finished products mean in the aggregate a sizeable waste of time. They also mean waste of space in truck and cars, in receiving plants, in storage space and unnecessary wear and tear on processing machinery which now is practically impossible to replace. The accumulated effort and space in the vehicles of transportation taken up by the considerable percentage of poorly finished products enter in the market represents a substantial volume of waste at a time when it is imperative to save rubber, conserve labour, storage refrigeration and shipping space — without reckoning the amount of profit lost to the producer.

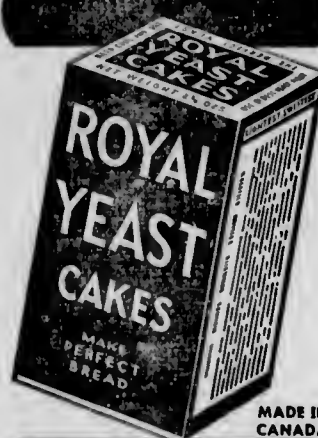

Dr. G. S. H. Barton, Deputy Minister, Dominion Department of Agriculture, Ottawa, says that a product properly produced is already more than half marketed. This truth is particularly worth observing in these days of emergency.

SASKATCHEWAN'S MINISTER OF EDUCATION COMMENDS SCOUTING

The valuable work accomplished by the Boy Scouts Association has already been held in high regard. At the present time, when so much depends upon the quality of our citizenship, the intrinsic value of its contribution to character development is more widely and readily apparent. —Hon. Hubert Staines, Minister of Education, for Saskatchewan.

Miss Edith Woolley of the Sugar City M. D. Office staff is helping for a few days at the Factory to acquaint others with the work she has had for several years past in keeping track of the best deliveries in the Company office.
